MEMORANDUM FOR: Deputy Director, Intelligence Community Staff

FROM:

[redacted]
Vice Chairman, Critical Intelligence Problems Committee

SUBJECT: Request for Domestic Travel (U)

25X1

1. It is requested that [redacted] and [redacted] be authorized travel to Los Alamos, New Mexico, during the period 21-25 January 1985. (U)

25X1

2. The Perry Panel will be discussing both Soviet and US Directed Energy Weapon (DEW) programs and their relationship to the ballistic missile defense problem at Los Alamos National Laboratories during the above period. Two full days have been scheduled for this meeting to allow ample time for discussions of DEW issues among panel members and invited guests, and to discuss any surface-to-air missile issues which might remain from the meeting.

25X1

[redacted]
will also be discussed. Additionally, a tour of the facilities at Los Alamos has been scheduled for 22 January. (S)

25X1

3. This meeting has a direct relationship to the BMD Study and the efforts of the Perry Panel [redacted] to improve our intelligence posture on this subject. In addition, this will be their final meeting prior to drafting a BMD report for the CIPC, and affords an opportunity to provide the Panel any last-minute direction, as appropriate. (C)

25X1

4. It is therefore recommended that you approve this travel request. (U)
